

## LAW AND FINANCIAL SERVICES REGULATION

### MODERATORS REPORT – MAY 2025

#### Introduction

78 scripts were received for post-moderation out of which 26 scripts representing 33.33% were sampled for a remark. The sample were selected from the scores mainly from between 45% - 55% as well as those above 80%. This was to reduce the risk of failing a candidate who could have passed and passing a candidate who ought to fail. And also, to reduce that only deserving candidates have the privilege of a distinction.
